Quick Guide for APA Style: References Page

QUICK TIPS

- Your list of citations should go on a new page at the end of your paper. Put “References” (with NO bold, italics or quote marks) at the top and center it.
- The list should be in alphabetical order by author’s last name or the first main word of the citation – for a Book with No Author, you would alphabetize it under the title.
- Always indent the second and any subsequent lines of your citations (hanging indent format).
- Always double space your References page and use 12 point font.
